

# Renaissance of Solid Rubber Tyres ...

■ Robust ■ Resilient ■ Reliable

## VELOX™ Features :

- Abrasion / Wear / Heat Resistant
- Cost Effective Operations
- Less Rolling Resistance
- Smoother Handling
- Maintenance Free
- Puncture Proof
- Excellent Stability

## VELOX™ Range

- ▶ VELOX™ Cushion Tyres
- ▶ VELOX™ Press-On Tyres
- ▶ VELOX™ Trolley Wheels
- ▶ VELOX™ Wheel Chair Tyres

## VELOX™ Applications

- ⊛ Fork lift Trucks ⊛ Road Paving Equipment
- ⊛ Baggage Trolleys ⊛ Internal Port Trailers
- ⊛ Reach Trucks ⊛ Side Loader ⊛ Pallet Trolleys
- ⊛ Air Craft Support Equipment ⊛ Platform Trucks
- ⊛ All slow moving, material handling applications

VELOX™ Range available in Customised Sizes apart from all Industry Standard Sizes

## Renaissance of Solid Rubber Tyres

**VELOX™** Solid Rubber Tyres are manufactured by using latest technology, modern equipment and quality plantation rubber to produce high quality compounds. Ideally designed, Velox range of industrial material handling equipment tyres meet the challenges of exacting working conditions in diverse realms. **VELOX™** Treads are of unique design and built of wear resistant compound to ensure improved driving comfort in full load condition along with stability, traction and braking in both dry / wet conditions. The tread's extra wide surface area along with optimum lug ensures long life and even wearing of tyre.

### ▶ **VELOX™** Cushion Tyres

Velox Cushion Tyres are manufactured based on the latest multi-layer tyre building technology in which the tyre's integrated layers of varying hardness are made up of different formulations, incorporating the requisite special properties. This ultimately results in inter-layer complementing properties to yield a perfect and homogeneous tyre with long life and low heat build up.

### ▶ **VELOX™** Press-On Tyres

Velox Press-On Tyres are made of unique tread compounds, high quality bonding agents & compounds to ensure fool-proof bonding between the rubber and rim yielding long life for the tyres. The press-on tyre rim is made of high quality steel maintaining close dimensional tolerances to avoid operational play and resultant wearing of Tyre.

### ▶ **VELOX™** Trolley Wheels

The Velox Trolley Wheels are manufactured using quality rubber tread to bond to high quality cast iron blanks to withstand higher loads. The range comprises of 100 to 400 mm OD and thickness from 38 to 125 mm.

### ▶ **VELOX™** Wheel Chair Tyres

The Velox Wheel Chair Tyres are manufactured from special quality, carbon and non-carbon based compounds and are available in all commercial sizes.

▲ Tyre Press

**VELOX™** Solid Rubber Tyres are manufactured by Paragon Polymer Products Pvt. Ltd., at its state-of-the-art plant at Patancheru, near Hyderabad with over 100,000 Sq.ft. built up area spread over 11.5 acres.

The company is backed by over three decades of Paragon's expertise in Rubber technology and unique experience of being India's largest selling rubber footwear company with over 40 products in its portfolio apart from its excellent Country-wide dealer and distribution network. The company has a unique distinction of adding several new products to its product range every year consistently.
